

Interfor Western Dimension Lumber

Interfor's Western Dimension Lumber is made with fine-grained fiber from the highest-quality forests in North America — with exacting quality and performance standards every time. Our grade options mean you will find the right product for your specific project, beginning with High Quality (HQ), our appearance grade, which meets the demands of the most discerning customer.

Building Value™

INTERFOR WESTERN DIMENSION LUMBER

BEST FOR QUALITY & PERFORMANCE

Over the last decade, Interfor has grown to become a world-class producer of some of the finest Western Dimension Lumber. We have secured a stable supply of fine-grained species preferred for quality structural uses — such as Spruce/Pine/Fir (SPF), Douglas-Fir/Larch(N) and Inland Hem-Fir(N) from British Columbia's Southern Interior.

Interfor Western Dimension Lumber is produced at our British Columbia mills in Adams Lake, Castlegar and Grand Forks.

BEST FOR ENVIRONMENT

Wood from responsible sources is by far the best building choice. Our Western Dimension Lumber comes from forests in British Columbia that meet Interfor's high environmental standards.

INTERFOR SOUTHERN YELLOW PINE DIMENSION LUMBER

BEST FOR QUALITY & PERFORMANCE

Southern pine species are renowned for their durability and versatility, and meet the needs of almost any project — from framing a house to building a deck. Interfor SYP Dimension Lumber comes in a variety of visual and MSR grades with a wide range of dependable strength and stiffness properties. It offers a distinct grain pattern and appealing golden color, and is the preferred species for pressure treating because its cellular structure permits deep and even penetration of preservatives.

Interfor produces SYP Dimension Lumber at our nine US South mills, located in Baxley, GA; Eatonton, GA; Meldrim, GA; Perry, GA; Preston, GA; Swainsboro, GA; Thomaston, GA; Georgetown, SC; and Monticello, AR.

BEST FOR ENVIRONMENT

Wood from responsible sources is by far the best building choice. Southern Yellow Pine species grow across the southern United States from east Texas to Virginia. Our SYP Dimension Lumber all comes from forests that are managed to meet Interfor's high environmental standards.
